Re: Connect America Fund, WC Docket No. 10-90

DOCKET FILE COPY ORIGINAL

Dear Ms. Dortch,

Inter-Community Telephone Company ("ICTC"), Study Area Code 381616, hereby notifies the Federal Communications Commission ("FCC" or "Commission") and the Wireline Competition Bureau ("WCB" or "Bureau") of changes that the Company made on March 1, 2016 to its previous two FCC Form 477s. The changes described herein contribute to a significant and vital amount of funding that appeared as a "loss" in the Alternative Connect America Model ("A-CAM") Version 4.2 illustrative results.

ICTC's previously-filed FCC Form 477s containing data as of December 31, 2014 and June 30, 2015 had incorrectly identified numerous census blocks as having broadband rates of 10/1 and higher, when in fact those areas are served only by rates of less than 10/1. The incorrect data for these blocks were inadvertent errors that came to light when we began reviewing the A-CAM Version 4.2 illustrative results in depth.

ICTC has immediately taken action and submitted revised forms on March 1, 2016. However, the Company remains concerned to assure that these changes will be incorporated into the forthcoming versions of the A-CAM. ICTC respectfully requests that the FCC incorporate these corrections into the A-CAM as soon as possible to reflect accurately the current state of broadband deployment in Study Area Code 381616. Without these corrections, the version of A-CAM which ultimately becomes operative will not reflect the facts pertaining to the availability of broadband in the Census Blocks served by Inter-Community Telephone Company. Thus, the Commission's universal service policy for ICTC's study area will be frustrated as the amount of support available under A-CAM will not be sufficient to achieve the Commission's goal for broadband deployment in this area.

Sincerely,
Inter-Community Telephone Co.

Mark A. Johnson
GM/CEO
